WORK EXPERIENCE & EXTRACURRICULAR PROJECTS

Web Science Institute, University of Southampton **Southampton, UK**
'Loops of Perception Project' Research Assistant Apr 2025 – Jun 2025

- Worked as part of a multidisciplinary team to explore the human perspective and robotic vision through two underwater sensing devices. Programmed and assembled devices consisting of sensors, Raspberry Pi and Arduinos. I remotely collected data and applied data visualisation techniques.
- Proof of concept was shown at the 2025 AI@Southampton festival.
- In 2026, developed on from the research to produce a mixed media piece exhibited in Hartley Library. Artistically incorporating data, physical computing, and TouchDesigner for detailed image mapping.

University of Southampton **Southampton & Winchester, UK**
Student Ambassador and Resident Life Assistant Jan 2025 – Present

- Represented the university, led taster days, campus tours and recruitment activities. Organised and ran weekly activities and created promotional materials to increase student engagement in accommodation.

UoS x CUC Global Smart Lab **Southampton, UK**
'Beyond Our Boundaries' - Student-Led Group Project Jan 2025 – Sep 2025

- Designed and developed an immersive VR experience educating users on diverse cultures, customs and architectural styles. Implemented a multisensory experience flow and researched narrative design.
- Exhibited Proof of Concept at the 2025 London Design Festival and featured in the university's press release.

WSA x TH Köln **Winchester, UK / Gummersbach, Germany**
Speculative Spatial Digitalisation Summer School May 2026 – June 2026

- Worked in a multidisciplinary team to co-create Digital Human Twins in Virtual-Physical Environments.
- Exhibited Proof of concept at Southampton University's Arts and Humanities Festival 2026
